MISSION STATEMENT/OWNERSHIP

Williams Construction Company is a company locally owned by a Palau business man, Mr. Billy Takamine established in late 2011. We pride ourselves on delivering the highest quality of work to our clients and have committed ourselves to serving the community of Palau with integrity and reliability.

Although we are still a young company, we understand the importance of building a good reputation and trust among our clients. Our dedicated team has over twenty-five years of experience in the construction industry, ensuring that we are equipped to meet all your needs with excellence. We firmly believe that our success is rooted in our commitment to quality service, and we guarantee that you can rely on us for all your construction projects.

We would be honored if you would consider Williams Construction Company for your future endeavors. Your trust in us will be met with our unwavering commitment to satisfaction and exemplary work.

PROJECT IMPLEMENTATION/QUALITY MANAGEMENT

Project execution will be based on the approved construction schedule. Execution will be thoroughly monitored by the key personnel assigned on the project. They will make sure that all phases of work will be completed on timely manner and quality control is in accordance to the requirements of the project Owner.

RESPONSIBILITIES OF KEY PERSONNELS IN THE PROJECT

- a. In charge of manpower polling
- b. In charge of materials and equipment requirements for the project
- c. Direct coordination with Project Engineer/s and Supervisors regarding plans and procedures

PROJECT MANAGER:

- a. In charge of preparation of billings, DTR Weather Charts permit requirements and all required communications for the project.
- b. In charge of monitoring project expenses, requisitions of materials and equipments required for the projects.
- c. Preparation of project schedules and plans and shall be directly supervising the supervisors and foreman assigned to the projects.
- d. Ensure that all works shall be according to plans and specifications.
- e. Coordinate with project owner on progress of the project.

SITE SUPERVISORS:

- a. In charge of requesting materials and equipments for assigned project.
- b. Supervision of Site Foreman and manpower assigned to him.
- c. Assist in field supervision and interpretation of plans and drawings.

SITE FOREMAN:

- a. In charge of ordering materials, equipments, and tools in advance (at least 3 days before).
- b. In charge of manpower distribution in his assigned project.
- c. Ensure that the project is done on schedule.
- d. In charge of securing materials, equipments, and tools at project site.
- e. In charge of manpower safety at project site.

TRUST, INTEGRITY AND COMMITMENT

HEALTH AND SAFETY MANAGEMENT

Each worker assigned to the project will be mandated to follow the company rules and regulations regarding health and safety which as follows;

1. All employees must wear hardhats on areas with treat of falling debris and other materials (e.g. in and out of the building site, etc).
2. All employees are required to wear safety vest on jobsite that requires for their presence to be seen immediately (e.g. road, tunnels, etc).
3. All employees are required to wear safety shoes at the jobsite at all times.
4. Smoking must be done only on break time. And at least 10 feet away from jobsite or other employees that do not smoke (*"Smoking is a choice, breathing is not"*).
5. No employee shall work if under the influence of alcohol and/or any drugs.
6. All employees must have raincoats and rain boots ready at all times in case of unforeseen rain or storm.
7. All Heavy Equipment will only be operated by a licensed Heavy Equipment Operator.
8. Safety signage must be placed at the jobsite as precautions and to avoid accidents.

ENVIRONMENTAL MANAGEMENT

Environmental safety procedures and requirements will be followed as stated on the issued permit and conditions of the Palau Environmental Quality Protection Board.

SUSTAINABILTY COMMITMENT

We, WILLIAMS CONSTRUCTION COMPANY ("WCC") are glad to our part in the evolution of sustainable construction. Our company is committed to environmental responsibility by creating innovative projects in harmony with the environment and keeping up with the conditions set forth by the local government agency like Environmental Quality Protection Board ("EQPB").

Palau is a pristine paradise. And with the ongoing development, we must consider sustainable options. WCC, as a locally owned construction company, we are with the government and its people as active participants in sustainability programs.
